Subject: CQC registration requirements - NHS Infection Prevention and Control resources

Dear Colleague

RE: CQC Infection Prevention and Control (IPC) registration requirements

General Practices and Health and Social Care settings, e.g., care homes

Further to our recent e-mail in July we are delighted to announce that the new resources to support General Practices with CQC registration are now available, these include:

- The Preventing Infection Workbook and Guidance for General Practice 2nd edition (Elaine Biscoe, National Nursing Advisor, Care Quality Commission - Head Office, London: *I think the Workbook for General Practice is comprehensive and will contribute towards IPC standards as required by the regulations and interpreted for use in primary care*)
A selection of samples pages are now [available to view](#)
- The IPC CQC Inspection Preparation Pack for General Practice

Please visit our website to see information on these innovative resources.
www.infectionpreventioncontrol.co.uk

Thank you to all those CCG's the have recommended our website and resources for use within their areas.

There is a wide range of further IPC resources for both GP's and Health and Social Care on our website, many of which are available to download free of charge:

- IPC Guidance – 25 individual documents which can be adopted as Policy documents
- Workbooks
- Audit tools
- Posters, leaflets, packs and factsheets

This NHS website, specially designed for both General Practice and Health and Social Care, offers a 'one-stop-shop' for all your infection prevention and control needs. All resources have been developed by an extremely experienced professional NHS multi-disciplinary team with expert advice from NHS Consultant Microbiologists.

You're in safe hands
