**Subject:** FOR INFORMATION: Research by the Kings Fund to assess current pressures in general practice

Good morning all

The Kings Fund recently hosted a conference “Pressure points: how can we support primary care to cope with growing demand?” and has made the presentations given on the day available [online](#).

You may find the three listed in the first session particularly useful, covering GP demand and supply, supporting GPs to deal with mounting pressures and supporting practice managers, and also one in the breakout streams session, on pharmacists taking pressure of GPs.

The conference is one component of a [project](#) the Kings Fund launched earlier this year to assess current pressures in general practice. You can read more about it [here](#).

Regards

Carmen
